

Looking for Faster Internet for Your Boise Business?

Are you looking for faster and affordable Internet for your business in Boise Idaho?

Do you need more bandwidth, more power, more speed or all three without having to pay a fortune every month or sign a three to seven year contract? Are you looking for a better Wi-Fi solution for clients, conference room, employees or guests; that does not share your network?

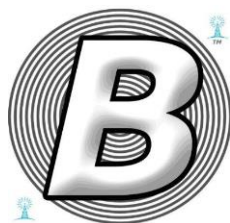

"We are looking for lookers", says Byron Ryals of BoiseWiFi. "We know there is a huge un-met need for both fixed and wireless Internet for business in downtown Boise. Not many of the over 10,000 businesses originally designed in or currently have the Internet capacity, quality or speed to accommodate even their own Internet and Wi-Fi needs. BoiseWiFi is here to help those who are looking for better Internet, Wi-Fi or network solutions.

BoiseWiFi offers wireless, microwave, point to point broadband Internet solutions delivering 30 Mbs to 1 Gbs of high quality bandwidth and can provide expert help in the design and installation of Wi-Fi solutions to meet your current needs and turn it up as your needs grow.

BoiseWiFi is here to serve your business and out serve the competition.

Are you a looker? Are you looking for better Internet, Wi-Fi or Network solutions?
